This is a change to the previously advertised space, as the proprietor of the bar was concerned this event may disturb his vanilla clientele on this most vanilla of evenings.

This will be an intimate event and incorporate aspects of my sissy school experience. You will dress as you wish, in which ever way makes you feel comfortable or uncomfortable (Wearers choice) But â??school uniformâ?• will be available if you are so inclined to wear it, or to be instructed by Mistress to wear it.

A focus for this Fridays lecture will be â??A history of Flagellations among nationsâ?•

https://www.tickettailor.com/events/spicypsychologylectures/1535897

A wonderfully progressive antiquarian text from 1888, it investigates how sadism (and masochism) are characteristics that unite humanity and how it doesnâ??t matter about creed or colour, one thing that unites us all is our creative and very human capacity to torture one another. Sometimes, to death.

In this instance via the global phenomenon of flagellation practices.

The book publishers motto is â??Strange Arts for Dark Heartsâ?•

This is an evolving spicy lecture series with a jungian approach to BDSM and in accordance with that ethos the event will also discuss these practices and others referring to that paradigm.

This event, like all Mistressâ?? sessions will have a fluid and improvised feel and intend to lead to an ultimately cathartic conclusion

Hypnosis and hypno role play will also be utilised as that has been a wonderfully effective group practice in previous lectures.

Please arrive on time and with an open mind
