SPICY
PSYCHOLOGY
LECTURES
PART 4

https://buytickets.at/spicypsychologylectures/1601366

I will be running my fourth spicy psychology, sissy school lecture on April 5th at 7.30pm

This immersive, educational and kinky experience will utilise sissy hypnosis techniques, role play and lecture, demonstration to explore the subject of Sissification and Mistressâ?? patenting Slutificationâ?¢? technique,

Mistress has been running individual sissy school sessions for 5 years and this fun and exciting event will explore the practice in theory of Sissification which usually occurs in a 1 to 1 setting, in a group

As this is a sissy school lecture we will investigate the subject in a fun and hot way but also in relation to much of the symbolism which appears in the Harry Potter books which relates to far older androgyne esoteric gender practices.

Using the symbol of the Baphomet as a focal point for part of the lecture. We will explore Sissification as an expression of something far older and less superficial than the form in which we enjoy it today

The Baphomet is an ancient much misunderstood symbol of transformation.

It had both a cock (or maybe a sissy clit) and tits.

What better symbol to use as a sigil to explore the kinky subject of sissification in theory and practice ?

â?¦ Some feedback from previous events

â??A wonderfully immersive, kinky and educational eventâ??

â??Thankyou, that was so much more than I expectedâ?•

â??Thank you for the lecture today, it was great to listen to your insight as well as the insight of the nice group of people at the lecture. Of course, the spanking felt amazing, it felt really nice to be feminine and I obviously enjoyed you spitting into my mouth.â?•
