# TABOO FESTIVAL

I ran a couple of workshops on erotic hypnosis and gender play and gave a talk on kink and political correctness at **www.taboofest.love**; an annual festival of alternative sexualities, in Berlin of June this year.

I wanted to write up some of my kinky experiences for Darkside Magazine but I was so busy I didn't have a chance to attend any workshops or play much at the Festival at all so, instead, I interviewed the organiser, participants and voyeurs of the final workshop of the festival, aptly named Liquid Love, which was a big coconut-oiled orgy.

**Stephanie - Festival Organiser**

**MP: Why did you organise this Festival ?**

**Stephanie:** My primary motive for organising this F was to support and empower people to express the selves sexually in an authentic way.

I have witnessed it over and over again that people the need to hide their sexuality and I believe that m taining a healthy sex life, whatever that means to th individual, is essential for living a happy life

**MP: Why did you chose to run the Liquid Love ever**

# ‘By getting to connect full-body skin-to-skin as a group, we feel complete joy’

**Stephanie:** For me the Liquid Love experience is a simple yet profound way for people to get to feel and celebrate their bodies, Eros and pleasure.

By getting to connect full-body skin-to-skin as a group we feel profound joy. It feeds our deepest needs and also allows us to feel safe, and that we belong. Also it is a beautiful and loving kinky experience which was created by Dr Joseph Hayes for the Touch and Play Festival.

**Kian - Official Festival Photographer and voyeur.**

**MP: Why did you come to the festival?**

**Kian:** I jokingly refer to myself as a professional voyeur. I love photography and I love watching people having a great time.

I've enjoyed the privilege and trust and of course unrestricted voyerism granted to me in my role as official photographer but obviously there are numerous consent issues with this type of photographic work.

We created a photographic consent structure specific Festival.

**MP: Did you participate in Liquid Love?**

**Kian:** I was a very enthusiastic voyeur!

**Ananda - Sex Coach**

**MP: Why did you come here?**

**Ananda:** To run two workshops at the Festival; 'Yes, Pl My Ass' and 'Underworld Journey', which you could de as both being journeys into the underworld.

**MP: Did you participate in Liquid Love?**

**Ananda:** I had an incredible experience at Liquid Love,

Stay dark

# ‘Humans are sexual beings but we’ve been conditioned into shame over thousands of years’

default watermark

Humans are sexual beings but we’ve been conditioned into shame over thousands of years. It’s beautiful to simply be and connect with other people in this way.

It’s wonderful to watch and experience the shame disappear and participants slip into an erotic state of connected and bliss.

**Ina - Festival Attendee.**

**MP: Why did you come here?**

**Ina:** I came here because I love the venue and meeting people and since my marriage ended after 18 years I’ve been embracing the liberation that has come with that.

**MP: Did you participate in Liquid Love?**

**Ina:** Not this time but I have done a number of Liquid Love experiences before.

I love the pure feeling of just skin-on-skin and getting to know people energetically in an erotic but non-sexual way. I love the beauty of being so intimate together and almost sharing one body.

I love the ‘verflichtung’ of it, the giving without expecting anything in return.

**Steffi - Workshop Facilitator**

**MP: Why did you come here ?**

**Steffi:** To run a Fire play workshop with my partner.

**MP: Did you participate in Liquid Love?**

**Steffi:** No. It’s not really my element. I prefer the quality of fire, playing with fire.

**Raj - Festival Attendee.**

**MP: Why did you come here?**

I came here because I’m from a traditional Hindu culture and wanted to learn from other cultures and expand my boundaries and horizons.

**MP: Did you participate in Liquid Love?**

**Raj:** No but as I first timer I didn’t expect to participate in

anything. I just came to witness but I surprised myself by participating in the 'Yes, Please in My Ass ' workshop.

**MP: Did you say 'Yes, please in my ass'?**

**Raj:** No and that's still not something I want to say but I did get to finger a woman's ass who I was partnered up with. It was so exciting!

I pushed my lube up, gloved fingers in her ass and played with her asshole. She really enjoyed it. I've never tried anything like that before but it's definitely something I'd try in the future with a partner

**Martin - Festival Attendee**

**MP: Why did you come here?**

**Martin:** I love the venue and the events here.

**MP: Did you participate in Liquid Love?**

**Martin:** No, but I've done one before on the Farm and it featured 150 people and a pool full of baby oil. I think it was part of a Guinness Record attempt for the amount of people involved in a Liquid Love event.

I didn't join in this time as there wasn't enough oil. I'm very hairy so the experience needs to b extremely well lubricated.

Which this wasn't.

**Kristine - Sex Coach**

**MP: Why did you come here ?**

**Kristine:** To run two workshops.

**MP:** Did you participate in Liquid Love?

**Kristine:** Yes! It was amazing. I've wanted to do one of these for years.

I'm non-binary, autistic and have ADHD so I ca struggle with being sociable, but I finally lost m Liquid Love virginity!

It felt safe as I'd known a lot of the participants for three days and once I took my psychic shie and surrendered to the softness of the bodies was incredible. A beautiful, blissful state beyo words.
