COLVE

The Baphomet. â?? The much maligned and misunderstood divine tranny slut.

Students will be expected to arrive dressed in their favourite sissy items or ready to dress (uniforms will be available)

The lecture will take the form of erotic hypnosis and role play as well as a more traditional lecture demonstration.

Punishments will be dished out for good or bad behaviour dependent on preference and sluts will be required to perform their competence as sissies to Mistress and the class and Mistress will also have a selection of CP items to make the experience even more spicy

Mistress will be wearing her strap on and will be waving her magic wand and will see if any volunteers at the festival can be found of any gender to demonstrate the correct method of putting an uppity sissy in their place; by fucking them in the ass although if this is way beyond your experience level, alternative methods of expressing dominance and ensuring your subordination and complete submission into your pathetic sissy self will be used.
