Mistress was unimpressed with her slovenly maid who seemed to want to do little else all day than play with her clitty and get her friend to admire her in the tiny pink panties Mistress had been to considerate to provide for her after she somehow lost the last tiny pink lacy pair

What should Mistress do with a useless maid that wanted to do little else than stick her bottom in the air and get fucked, moaning softly and whimpering in appreciation of every thrust of Mistressâ?? strap on, that took her deeper and deeper and harder and faster into the sissy rabbit hole. Sissy clit leaking more and more with every pathetic moan.

â??Youâ??re not a milk maid. Youâ??re a sissy parlour maidâ?? said Mistress and youâ??ll need to be strapped onto the spanking bench and punished until you learn to be a good girl for Mistress
