Sissy hypnosis is a dangerous game?!

Sissy X was so excited . She wanted to please her dark omnipresent Goddess by completing the task she had set.

But she was distracted:

Her skin tingled. She felt orgasmic tingles of pleasure run up the pink seams of her flimsy pink nylons. She felt tingles run up her milky white thighs and up to her sissy clit that twitched and throbbed, under the cold pink metal of the chastity cage Mistress has locked her in.

The orgasmic tingles increased. With every thought of her Goddess. Her goddess who had set her this impossible task. Sissy's mind was filled with thoughts of her Goddess and the need to please her.

Sissy's cage strained again under her tight pink panties. She thought again of her Goddess. All knowing. All powerful. Ever present. Her beauty. Her dominance. Her effortless superiority.

Her clitty leaked thinking about her Goddess . Thinking about her Goddess and the humiliation her Goddess could metre out. She dropped to her knees, weak, thinking about her Goddess's laughter. Her Goddess's raised eyebrow her demeaning look. Sissy, degraded humbled, so horny lapsed into a haze of sissified stupor.

Sissy ground her clit against the floor attempting to relieve the excitement she felt. She blushed and became even more excited imagining what would happen if someone came by and saw her in this exposed and embarrassing scenario

What would happen if a man came by at this moment, whilst her skirt was up around her waist , tight pink g string tight, against her slutty hole and stocking tops tights against her milky white thighs. Would the man stop his car and take advantage of her whilst she was in this vulnerable and exposed position.

Sissy hoped so.

She imagined the man's hands on her breasts and grasping her thighs. Using her body for his pleasure.

Sissy could feel Mistress, ever present, so wise and all seeing watching. Her mind and the universe full of Mistress. She wanted to please Mistress. She wanted to please Mistress and Her beautiful breasts tight under her tight black top. Her stern lips, her beautiful all seeing eyes.

And all Sissy wanted to do was surrender to Mistress. And the men

Sissy hypnosis is a dangerous game.
