

The Sissy School makeover experience

Description

default watermark

default watermark

I now have a photo studio in the sissy school! a white photographic colorama, as modelled by mistress and professional studio lighting!

Perfect for post makeover memories and experiencing the submissive thrill of being a model for Masters

Sissy Sandy had the honour of being my first model today although she didn't wish to share the lovely photos she took away with her

She did however enjoy the idea they would be added to the menu I show to the clients attending my lap dancing club

Would you like to be added to Mistress menu , her sissy smorgasbord

Of course you would ?
