The slutty style shown here and suggested to sissy schoolers would be colloquially known as cumbrellas.

A false eyelash that prevents cum entering the eye .

Fake eyelashes evolved from ancient beauty rituals like Egyptian black kohl (which is still used today) to modern extensions that gained mass appeal via Hollywood in the 1940s-60s. Stars like Twiggy, and Marilyn Monroe popularised them before they emerged as the accessible variety held on with glue or magnets women purchase on high streets today

False eyelashes amplify your flirty, come on my tits gaze.

Your eyelashes turns heads and make cocks hard.

Your sultry stare, your playful flutter, seductive cumbrellas have a natural ability to amplify allure and elevate your look to irresistible heights.

Imagine as you suck his cock your fake eyelashes flutter tantalisingly against the tip before he forces it down your slutty throat again. And when he cums in your face at least you won't get cum in your eyes. Which would be a terrible waste.
