Some thoughts on her first day at sissy school, by Sissy Gabby

When I think about submitting to Mistress I feel such a huge sense of purpose and pride. My submission to Her enables me to overcome and push through challenges that come with repudiating total control of my mind, body and psyche to Mistress.

Her Power and control over me is so intense that I long to be locked in chastity to Her. I seek only to impress Her in any way that She deems appropriate.

The fact that I will remain locked up in permanent chastity to Mistress gives me such a thrill. It pleases me that She will have the pleasure of knowing that I am locked up, remaining pure and chaste for my Mistress.

When I think about submitting to Mistress, i feel utterly controlled; compelled to surrender my dignity and freedom in order to please Mistress.

I hope to engage with my sissy side more by dressing appropriately for Mistress in clothes that are smart and feminine but also in slutty clothes when the situation is necessary.

These are some of the things I hope to achieve in serving Mistress:

â?? the achieve my feminine potential

â?? to succeed in engaging in chastity

â?? to never c*m without the permission of Mistress

â?? to serve Mistress to the best of my ability at all times

â?? to make money for Mistress and raise the profile of Mistress through blogs and responsibilities as an admin assistant

Wearing pink panties makes me feel so emasculated and such a great sense of purpose! It makes me feel like my true self!

Gabbys first day at sissy schoolâ?¦. Continuedâ?¦.

As soon as I noticed Her site, I was immediately under Her spell. Her deep brown eyes and beautiful, yet cruel smile.

Mistress looked so beautiful and Her interests were so relatable that I felt compelled to contact Her. The section on sissification was so perfect, it was as though Mistress had written it for me personally!

I contacted via email originally and an online session was quickly arranged.

It was made clear almost immediately that as part of my servitude to Her, I must repudiate my masculinity and control over my sexual freedom. I must hand over control of my life to Mistress . And in return, I am allowed to call Her â??Daddyâ?•.

Before I signed into the online call, I took the agreed â??good girlâ?• position. Kneeling, looking up in the camera, my palms open and resting on my knees. And a ball gag in my mouth. Being gagged created such a humiliating first impression. Daddy was so beautiful as in Her photos. I felt immediately submissive. I was also made to dress in my sissy uniform; a white blouse and a pink tie underneath a bright pink cardigan with lovely gold buttons. The overall effect of the uniform is to render a sissy utterly emasculated and feminine.

Daddy described to me Her fantasies for me. How I am going to be Her cock sucking, feminised whore, dressed up in panties and locked in inescapable chastity. I felt so captivated by Her words and my tiny clitty sored in pleasure.

So, you are a sissy?â?• Daddy asked accusingly.

â??Yes, Mistressâ?•, I responded, still with my head bowed.

â??I want my sissies to look nice and slutty,â?•

â??Yes Daddy. I would love to be Your little slut,â?• I added confidently hoping to impress Her with my eagerness.

The Power and Beauty of Daddy compelled me to perform tasks that I would have otherwise been too shy to do. At one point, I was ordered to suck on a cucumber as though it was a big, juicy cock. I loved every moment of it! My slutty mouth watering at the memory.

The session also involved the terms of my servitude being discussed. I am Daddyâ??s obedient, little girl, given a sense of purpose to impress and serve Daddy.

I am so honoured to leave the session, giving up my independence and sexual freedom to the control of Daddy. It feels like such a tiny price to pay in order to serve Her

A testimonial on my time at sissy school

By Sissy Sally

Mistress I enjoyed attending Sissy school sooooo much. I have a dirty great big sub space grin, even now.

The experience was awsome and, was requested it was mind blowing not knowing what was going to happen next.

I was dressed in tiny panties and nothing but a blindfold and earplugs; so no sight or sound; so I drifted away really quickly .

My time at the school was incredible.

One of the very best sessions ever.

Being tied and gagged and left helpless in tiny panties and a bra with my clitty rubbing up and grinding against my pink panties was so exciting.

Itâ??s really mind blowing bring plugged and gagged and being forced to demonstrate oneâ??s feminine whiles.

I can understand why people become addicted, it was awesome. Super hot and such an overdue break from boring responsible me.

I hope to book another ass-essment session very soon

Sissy Sallyâ??s sissy school testimonial â?¦

Continuedâ?¦

My Sally persona is a great escape. The shopping for clothes and nail varnish and the actual session.

Considerable time goes into preparation on my part; shaving, cleaning and making sure I look my best for mistress.

The build up to class is so exciting. It makes my week so much more fun.

I love shopping for new outfits and I tried three different blue nail polishes before I found a combination I was happy with which was so liberating and such a great escape from being the usual, sensible me.

I have been working on Butt plug insertion and hope to impress mistress with my ability to be plugged and present my bottom at school.

I love every class I take and recommend enrolment to anyone who wants to experiment with living their sissy dreams

Sissy Evana

I loved being a slut for mistress.

She dressed me up in panties, a wig, body stocking and high heels and guided in a hypno role play where I was fully immersed in fantasy experience from conjoured from the deepest recess of my slutty imagination.

Mistress tailored the hot fantasy hypnosis, role play and it fitted me perfectly. like a pink latex cock in slutty boi pussy

I am so glad I finally got up the courage to indulge and submit completely to mistress and become the best little slut for her (and me) that I always hoped I could be.
